

Emil Dickson

Resume

CAREER OBJECTIVE

Engineering student in Media Technology with a passion for technology currently working on my master's thesis, looking for my first job after graduating. I am a generalist using various tools & languages for development, with an emphasis on web technologies.

EXPERIENCE

MASTER'S THESIS - VISUALIZATION TOOL FOR OLYMPIC KAYAKING

KTH & Swedish Olympic Academy, Stockholm / Jan 2020 -

- Designing, building and evaluating a web app for visualizing multi-dimensional performance data
- React.js, Redux, UX-design (Sketch), Information visualization (D3.js)

TEACHER'S ASSISTANT - MOBILE DEVELOPMENT WITH WEB TECHNOLOGIES

KTH, Stockholm / Mar - Jun 2020

- Providing programming help and auditing student's work
- Assessing student projects

FULL-STACK DEVELOPER (INTERNSHIP)

Prototyp, Stockholm / Jun - Aug 2019

- Worked in a team developing a web-based tool for editing transcripts from interviews conducted by an AI robot
- Frontend development using Docker, React.js and Redux with TypeScript and Jest
- Backend development using Node.js and TypeORM with TypeScript and Jest
- Participated in client meetings and presented progress
- Reviewed code from senior developers

GRAPHICS OPERATOR

Statnet, Stockholm / Jan 2018 -

- Editorial work before and during live sports broadcasts
- Managing graphics using control software for live TV

IT-CONSULTANT

Excanto, Stockholm / Jan 2010 - Jun 2014

- Managed and was responsible for support for local IT-environments for small and medium-sized companies
- Was involved in a number of larger IT-projects
